EBN TECHNICAL SEMINAR BUILDING EC PROJECTS

Education, Training, Knowledge & Cooperation
Opportunities and Best Practices

Lisbon - Portugal, 4 (Thursday) & 5 (Friday) December
Hotel Tivoli Oriente (Parque das Nações)

The EBN Technical Seminar "Building EC Projects" was held in Lisbon on the 4th & 5th of December. With the attendance of around 80 participants, EBN was pleased to see the success and satisfaction from its members and newcomers.

The availability and inputs provided by the European Commission (EC) speakers and EBN experts were focused on relevant opportunities for BICs, with a particular attention to the following EC Programmes: Leonardo da Vinci, Regions for Economic Change, Regions of Knowledge and Interreg IVC.

It was a two day event including a networking dinner, in Castelo de São Jorge, to brainstorm, share ideas & practices, in order to promote new partnerships.

During the last day, EBN organised an informal EC project clinic to support the participants with their ideas and future project proposals.

EBN would like to thank all people who collaborated to the event and kindly asks participants to fill in the evaluation form enclosed.
